

# En Min Pro

Probiotics, Prebiotic, Vitamins, Minerals, Enzymes

Stress Free Bird

Stress Free with Pre-Pro-biotics,  
Vitamin, Minerals,  
Enzymes & Electrolytes

**En Min Pro** is a combination of Prebiotics, Probiotics, Vitamins, Minerals & Enzymes for protecting the bird from all types of stress. Right through transportation from hatchery in the chick boxes, to the phases of grower & finisher - **En Min Pro** ensures that the bird is free from stress, thereby allowing the bird to channelize its energy towards superior growth.

## Key Ingredients (per 500 g)

|                                  |                |
|----------------------------------|----------------|
| Dextran Oligosaccharides         | 250 mg         |
| <i>Lactobacillus acidophilus</i> | 10 Billion CFU |
| <i>Bifidobacterium bifidum</i>   |                |
| <i>Saccharomyces boulardii</i>   |                |
| <i>Aspergillus oryzae</i>        |                |
| Vitamin A                        | 335150 IU      |
| Vitamin D <sub>3</sub>           |                |
| Vitamin E                        |                |
| Vitamin K <sub>3</sub>           | 1260 mg        |
| Riboflavin                       |                |
| Niacin                           |                |
| Calcium D-Pantothenate           |                |
| Pyridoxine                       |                |
| Methyl Sulphonyl Methane         | 1000 mg        |
| Phytase                          | 1540000 IU     |
| Protease                         |                |
| Xylanase                         |                |
| Potassium Chloride               | 9000 mg        |
| Sodium Sulphate                  |                |

## Key Benefits:

- **En Min Pro** Relieves birds from all types of stress
- **En Min Pro** Prevents damage caused by free radicals
- **En Min Pro** Improves the digestibility of feed
- **En Min Pro** Prevents diarrhoea & dehydration
- **En Min Pro** Helps in better weight gain & FCR

## Suggested Usage & Application:

1g / 1 Lit Drinking Water for 5-7 Days

## Storage and Handling:

Do not freeze. Optimum temperature for storage is 35°C or below.  
Avoid direct sunlight

## Shelf life:

Best when used within 18 months from the month of manufacture

**Presentation:** 500g & Customized Packs
