

FOWL-GUT

Healthy Gut for Healthy Bird

Pre-Pro-biotics & Enzymatic
Care for Healthy Gut

Fowl-Gut is an alternative to medicines for maintaining the Gut Health of the Birds, which ensures a healthy gut for the birds right from Day Zero. **Fowl-Gut** creates a favourable microbial environment in the bird's gut thereby competitively excluding the colonization of harmful microbes and ensuring enhanced nutrient availability, assimilation, digestibility & absorption.

Key Ingredients (per g)

- Probiotics
 - *Bacillus coagulans*
 - *Bacillus subtilis*
 - *Bacillus licheniformis*
 - *Bacillus polymyxa*
 - *Enterococcus faecalis*
 - *Enterococcus faecium*3 Billion CFU
- Prebiotic
 - Manon Oligo Saccharide – 200 mg
- Enzymes
 - β Xylanase
 - Protease
 - Amylase4570 IU

Key Benefits:

- **Fowl-Gut** Colonizes favourable microbes in the gut
- **Fowl-Gut** Competitively inhibits harmful microbes
- **Fowl-Gut** Promotes blood supply to the gut & maintains healthy gut
- **Fowl-Gut** Ensures enhanced nutrient availability, assimilation, digestibility & absorption
- **Fowl-Gut** Reduces stress & improves immunity
- **Fowl-Gut** Improves protein digestibility
- **Fowl-Gut** Helps in better weight gain & FCR

Suggested Usage & Application:

Drinking Water :

- Chicks – 1g / 2 Lit.
- Broiler, Layer & Breeder – 1g / 2 – 3 Lit.

Feed : 200g – 250g / MT for 10 days

Or as directed by Registered Veterinary Practitioner

Storage and Handling:

Do not freeze. Optimum temperature for storage is 35°C or below. Avoid direct sunlight

Shelf life:

Best when used with in 18 months from the month of manufacture.

Packing:

1kg & Customized Packs
